## Specification Guidelines For Recycling Gas Tanks

### Plastic Gas Tanks:

- ▶ *Gasoline must be drained prior to baling.*
- ▶ *Metal clips should be removed prior to baling.*
- ▶ *All plastic gas tanks can be baled together.*

Price: \$100 - \$200/Ton FOB your dock.

Size & Weight: 40,000 lbs /40' High Cube Export Container.

Contamination: 5% surface dirt & moisture will be tolerated.

Auto plastics are large in nature, easy to identify, handle, and bale.  
Reduce transportation and landfill costs while generating revenue.  
Redirect waste from landfills and improve your diversion rate.

For more information or to request a purchase order contact your local  
UCS Recycling Specialist.
